

# Sustainable In-PRINT

Sustainable Living Fabrics can now offer custom printed upholstery fabric suitable for use on all contract furniture acoustic panels or screens, called Sustainable In-PRINT.

Designers may specify their own project specific graphics, artwork, patterns or photographs to be printed onto Sustainable **Renegade** 137cm wide, or Sustainable **Classics** 188cm wide.

Simply supply print ready art, one repeat long, as a single file digital artwork, single image or seamless repeatable design (i.e. no repeat lines). We will repeat your vector file design down the roll to the length you require on a per lineal metre basis. We encourage the printing of a 'strike off' sample for Client approval prior to commencement.

Meterage artwork formats to be PDF & TIFF, 100% scale, 1'50-300 DPI, and CMYK colour profiles no larger than 1GB.

Photographic artwork formats to be high resolution JPEG's or PDF's for RGB format, with overall completed size required, for printing to be as per the photograph colours.

Minimum order length is one metre down the roll. (Add a lead in allowance of 2 metres for orders over 15 metres).

## Base Fabric Ranges

Sustainable Renegade, colour 'Amnesty' SRB02

Sustainable Classics colour 'Tolstoy' SCL077

## Composition
